DETAILED ACTION

It is noted that Applicant has previously elected the species of "turkey offal" and "animal processing waste" for examination and the elected species are allowed. Applicant is advised that the reply to this requirement **to be complete must include (i) a next election of a specie to be examined and (ii) identification of the claims encompassing the elected species, including any claims subsequently added.**

It is also reminded that claim 25 was not read on the selected specie as argued in paper filed on November 13, 2007 because a "food processing waste" does not necessary comprise animal processing waste.
